

**NEGATIVE DECLARATION**

825 East Third Street, Room 201, San Bernardino, CA 92415-0835

Project Description

Project consists of clearing and grubbing; removal of existing grouted rock protection at the Marlay Avenue and R/R spur structures; removal of grouted rock, rail and wire revetment, and bottom controls along the existing earth channel; miscellaneous rubble and rock removal; channel excavation and construction of concrete channel and channel bottom access ramps; construction of reinforced concrete box culvert at Philadelphia Street, importing fill material from Jurupa Basin; installation of drainage inlets, reinforced concrete pipe and pipe collars, channel side drain outlet structures, gauging stations, and access ladders; installation of chain link fences and gates; grading and paving access roads, earth work and other appurtenant work not mentioned above. San Sevaine Channel (Lower Reach) is located approximately 660 feet south of Jurupa Avenue, downstream to 196 feet south of Philadelphia Street, City of Fontana and unincorporated Mira Loma area of Riverside County.

November 30, 2004**Effective date of Negative Declaration**

Plans and specifications for the referenced project are available for public inspection in the Environmental Management Division of the Department of Public Works or the Planning Division of the Land Use Services Department.

Pursuant to provisions of the California Environmental Quality Act and the San Bernardino County Environmental Review Guidelines, the above referenced project has been determined not to have a significant effect upon the environment. An Environmental Impact Report will not be required.

Reasons to support this finding are included in the written Initial Study prepared by the San Bernardino County Department of Public Works, Flood Control District.
